

PRESS RELEASE

For immediate release

January 5, 2015
FORT WORTH, TEXAS

STEVE SELNER NAMED INTERIM STATION MANAGER OF KFS LOS ANGELES.

Twenty-five plus year industry veteran to oversee domestic, international and warehousing operations.

KFS, Inc., a leading Fort Worth-based international and domestic logistics company, proudly announces that Steve Selner has accepted the position of Interim Station Manager for its Carson, CA, operations.

Steve has been placed in charge of a facility that fall became a Customs bonded Container Freight Station (CFS) offering transload, gateway and transportation services.

With more than twenty-five years experience in freight forwarding sales, operations and management, Steve will oversee operations in Carson while building and expanding warehouse and freight sales.

During Steve's quarter-century in the logistics industry, he has worked at and held leadership positions with many readily-recognizable names to those both in and out of the industry including Hecny Group, Danzas and UPS.

"This is a great opportunity," said Selner. "KFS is committed to expanding its intermodal and domestic air and ground offerings via the Carson facility. To craft a strategy and lead a great group of loyal employees within a such a respected company is an honor and a challenge I have fully embraced."
